Attention Electric Consumers.

On and after January 1, 1913, the following rates and schedules for electric consumers will be in force and effective, and said rates will apply to the consumption during the month of December, 1912:

First 25 kilowatt hours used, 12 cents per kilowatt hour.

Next 50 kilowatt hours used, 11 cents per kilowatt hour.

Next 100 kilowatt hours used, 10 cents per kilowatt hour.

Next 100 kilowatt hours used, 9 cents per kilowatt hour.

Next 100 kilowatt hours used, 8 cents per kilowatt hour.

Next 100 kilowatt hours used 7 cents per kilowatt hour.

Next 100 kilowatt hours used 6 cents per kilowatt hour.

All used in excess of above 5 cents per kilowatt hour.

From the above prices a discount of 1 cent per kilowatt hour will be allowed on all bills paid on or before the discount date.

For the further convenience of our patrons we will advance the discount date from the tenth to the fifteenth day of the month.

We also wish to state that on carbon incandescent lamps we will furnish free removals, providing burnt out lamps have been originally purchased from us, and provided same are returned with globes unbroken.

In spite of this free renewal of carbon lamps we wish to frankly state to our patrons that it will be to their best interest to use Tungsten lamps, the saving in current consumed being sufficient to pay for the additional lamp cost and still leaving a nice margin of profit in the saving to the consumer in his electric light bill.

In conclusion we wish to say that it is to our desire to give to one and all the greatest amount of light for the least money, to give courteous and prompt attention to all complaints and in return we ask that our customers cooperate with us in a mutual effort to advance the best interest of all parties. We hereto remain Respectfully,
PARIS GAS & ELECTRIC CO., Inc. By W. A. Smith, Vice President.
